NO EVIDENCE OF RODENT INFESTATION  
NO SANITARY IRREGULARITIES DETECTED

Name and designation of issuing officer: *Esch Richard*

1 (a) Evidence of infection or contamination, including: vectors in all stages of growth, animal reservoirs for zoonotic forms of other species that could carry human disease, microbiological, chemical and other risks to human health; signs of inadequate sanitary measures. (b) Information concerning any human cases (to be included in the logbook).  
 2 Results from samples taken on board. Analysis to be provided to ship's master by the inspecting officer and if re-inspection is required, to the next appropriate port of call coinciding with the re-inspection date specified in this certificate.  
 Sanitation Control Exemption Certificates and Sanitation Control Certificates are valid for a maximum of six months, but the validity period may be extended by one month if inspection cannot be carried out at the port and there is no evidence of infection or contamination.
